

WORLD LATIN MUSIC FROM THE ANDES

NEW RELEASE!

Urubamba presents its new album, “**Más allá de las palabras**”—a music deeply rooted in its Andean origins yet constantly evolving, transcending borders, and seeking above all a form of human harmony.

Born in the 1970s under the initiative of **Jorge Milchberg**, during a touring and recording project with singer **Paul Simon**, Urubamba has from the very beginning brought together the musical soul of the South American continent with a poetic and philosophical vision, subtle harmonic nuances, and a continuous search for balance between musical rigor and personal expression.

This new album is not only the heir to a musical journey but also to a philosophical legacy passed on by Jorge Milchberg: the idea that music is not an end in itself, but a path toward a space where we are all connected. The true purpose lies in that profound human connection that arises when music becomes a shared place between those who perform it and those who listen.

Thus, “**Más allá de las palabras**” expresses what words cannot convey, crossing the boundaries of thought and inviting us to listen to the invisible: the echo of a living tradition, matured over time yet always faithful to its essence.

Olivier Milchberg: artistic direction, winds, guitar

Pablo Trosman: guitar, charango, vocals

Fidel Guigui: winds

Juan Gau: guitar, charango

Teresa Méndez: vocals, bombo

Walter Arjona: winds, percussion
